

The Daily Astorian.

ASTORIA, OREGON.

FRIDAY, OCTOBER 2, 1895

How near does this come to being Indian summer?

A movement is on foot, in Portland, to organize a public board of charities.

The class in shorthand writing, will be organized this evening, at 8 o'clock, in the Y. M. C. A. rooms.

The secretary of the Lane county fair telegraphed to the secretary of the O. S. B. A., that the Lord was his shepherd, September 29th.

The artesian well on W. L. Ladd's East Portland farm is now 1,300 feet deep, at which depth the drill struck a stratum of volcanic rock that is hard to pierce.

The race between Brown and McCabe's Whitehall boat and Denny Curran's Whitehall boat for \$50 a side, comes off at eleven o'clock tomorrow morning.

"The Occident cup" is on exhibition at the Occident saloon. It is a handsome silver cup, gold-lined, and will be won by the fastest boat in next week's regatta.

During September, there were shipped foreign from Astoria, 193,922 lbs. wheat, worth \$130,284; 37,730 ea. salmon, worth \$150,920; and 23,881 lbs. flour worth \$95,525; total, \$380,730.

Col. Lazelle, inspector-general of the department of the Columbia, who has been on an official visit to this vicinity, went up to Vancouver yesterday morning. While at the cape Capt. Flavel placed the Columbia at his disposal.

The *Jno. T. Berry* finished loading salmon yesterday, and dropped down to Gray's dock to take on water. The *State* started down to the bar at two o'clock; the *Oregon* had not been reported up to six o'clock.

Rev. J. A. Olinger, a competent instructor, advertises his intention to open a private school where in addition to the modern branches, English, French, or German languages may be learned; also an ornamental school of needle work, embroidery, etc., for young ladies, by Mrs. Olinger. See adv't.

A boat race is proposed to-day between J. C. Lidwell and J. H. De Force, each to navigate his own craft. Lidwell's boat is 24 feet long. De Force's, about 35. The race is announced to start between ten and eleven from a point opposite Flavel's dock to the buoy abreast of Smith's point and return, and to be for \$50 a side.

A box of luscious strawberries picked on John Matier's place yesterday morning, shows that Clatsop county stands second to none in quality of small fruits and length of duration of the strawberry season. Scarlet berries picked in October, and fully equal in size and flavor to those of June, come in well with grapes, watermelon and pumpkin pie.

Through the death of her husband, Mrs. Carrie Pearson, aged 33, of Portland, had to seek county relief at the poor farm. Gustaf Peterson, of the grand jury, spoke among others, to P. J. O'Brien, aged 35, who, though he had never seen her, said he would marry her if she was willing. She consented, and they were married yesterday, meeting for the first time at the altar, or words to that effect.

Chas. Strauss, who was appointed from this state to the naval academy at Annapolis, and who was plucked in grammar in his preparatory examination, has a poor opinion of the Portland high school, of which institution he is a graduate. Perhaps it's just as well for him that he didn't pass. The last young man sent to Annapolis, Fred Strang, was killed by rowdies, under the guise of "hazing."

Resignation of Rev. J. J. Hoikka.

Many of our Scandinavian citizens will learn with regret of the resignation of Rev. J. J. Hoikka who has so ably and faithfully ministered to their spiritual wants. The reverend gentleman will preach for the last time in the upper Astoria church at ten o'clock next Sunday, the 6th inst., and in the Finnish church at three in the afternoon. The fine condition of the two churches must be a mutual satisfaction to Mr. Hoikka and his parishioners. He leaves next week for Illinois, and will be held in kindly remembrance by many in Astoria. Rev. Wm. Williamson will temporarily fill the Swedish pulpit.

There will be a meeting of the Ladies' Coffee Club at their rooms tomorrow evening at 7 o'clock to transact general business.

By order of the President, Mrs. J. W. Hume.

Grand Ball.
There will be a grand ball given by Chas. Eklund at Upper Astoria hall on Saturday evening, October 3rd.

Millinery.
Mrs. A. Malcolm has received her Fall and Winter stock of Millinery and is now ready to supply the ladies of Astoria and vicinity with all the newest styles and latest novelties. Mrs. McMaster will be in charge of the trimming department. Next Saturday a full line of trimmed goods will be on exhibition. On account of the late arrival of goods no regular opening will be held this season.

U. S. Government Nautical Almanac for 1896 now ready. For sale at Griffin & Reed's.

School Books.
All new books adopted by schools for sale at introductory prices until January 1st, 1896. Those who have purchased from us any of the new books can have the difference between the regular and introductory prices refunded. GRIFIN & REED, City Book Store.

W. Lussier of San Francisco has engaged in the photograph business with Crow the leading photographer.

WEDDING RECEPTION.

Marriage of Miss Maud E. Hobson and C. G. Fulton.

The residence of Hon. C. W. Fulton was ablaze with light last evening, the occasion being the wedding reception of G. C. Fulton and wife, nee Miss Maud E. Hobson.

The marriage ceremony, which was comparatively private, was performed at 7:30 p. m. Rev. Mardon D. Wilson officiating, there being but few present besides the relatives and intimate friends of the couple. The bride was dressed in cream colored satin, trimmed in Duchess lace, with pearl ornaments; the bridesmaids wore Miss May Hobson and Miss Lillian Crosby; the groom was supported by Dr. Arthur Fulton and Dr. E. A. Shaw.

After the impressive words were pronounced that made the handsome young couple man and wife, they turned to receive the cordial congratulations of their friends, who filled the house from top to bottom. Scarcely had there been a heartier or more universal token of regard being elicited, or a more numerous array of wedding presents been displayed.

The bride is an Astoria girl, born and bred, the second daughter of Hon. John Hobson, collector of the port, and a universal favorite; the groom is well and favorably known as a lawyer of exceeding promise. From eight o'clock till nearly midnight the invited guests thronged in to proffer their best wishes and congratulations, a sumptuous supper being served to all who wished to partake. The newly wedded pair leave for Portland this morning; on their return a new and handsomely furnished house on Benton and Seventh streets awaits their occupancy.

LUMBERING ON THE SOUND.

A correspondent of the Chicago Lumberman writing from the Puget sound lumbering district, says:

Lumbermen in this district are now cutting close to the ground instead of climbing up from eight to twenty feet, and then chopping the tree down. In felling trees saws are also used. Another great improvement is the locomotive and steel rails, which is a vast improvement on the skid road. A very noticeable improvement is also being made in the mills in the way of live rollers and improved machinery.

The former high standard of wages of from \$50 to \$125 has given way to \$20 to \$30. Hay can now be got at \$8 a ton, and feed and other camp supplies at proportionate rates. With such reductions the loggers say they are able to make as much profit at \$5 a thousand for logs as they did in the height of good times when logs sold for \$7.50. Much fault is found with mill firms on account of the scale given.

I am informed that a firm is putting logs afloat in Puget sound, near Olympia, over a five-mile steam railroad, for \$250 a thousand. There is no reason why logging cannot be done as economically here as in Michigan.

Marriage Licenses.

The following marriage licenses were issued from the county clerk's office during the month of September: 3, Henry Wittl and Lillie A. Fox; 4, J. C. Rierson I. K. Berge; 4, G. O. Kornstad and L. O. Bakke; 5, T. Seivertson and Mary Anderson; 7, D. A. Rose and Lizzie Duell; 9, Karl Ranta and Trina Hegglund; 12, Jno. Forsman and Louisa Erickson; 12, A. L. Parker and Annie Nelson; 14, Jno. Wiik and M. Lahti; 26, O. H. Suopaka and Lisa Peltto; 29, Elmer Warnstaff and M. D. Miller.

Any one finding a small gold pin in the shape of a cross will be rewarded by leaving it at THE ASTORIAN office.

For Rent.

FIVE MINUTES

With the Condensed News of the Day.

The Sandwich islanders are trying to restrict Chinese immigration.

An epidemic of small pox exists in Montreal. Rioters opposed to vaccination make trouble.

Massachusetts Republicans met at Springfield, on the 30th, and renominated Gov. Robinson.

It is thought \$25,000, cash, would keep the *Geneste* in New York, and that that amount will be offered.

Manton Marble, ordered to Germany by the president, is getting bankers' opinions there regarding the silver question.

The Mormons have retained Senator Vance, of North Carolina, and ex-Senator Francis Kernan, of New York, as counsel, in place of Emory A. Storrs, deceased.

James Lawrence of Jacksonville committed suicide on the 30th by shooting himself through the head. He was a native of Pennsylvania, a single man, and aged 74 years.

It is estimated that there has been a decrease of about \$12,000,000 in the public debt during the month of September. Payments on account of pensions during the month were about \$4,000,000.

Information has been received at headquarters that 200 Piegan Indians have left their reservation in the far northwest and are now on a thieving expedition in southern Montana, about twenty miles from Fort Smith.

The daily express on the California and Oregon railroad commenced last Wednesday evening, leaving Redding at 4 o'clock in the afternoon via Middle Creek and Shasta to Iron Mountain, carrying freight and passengers.

Virginia negroes met in state convention at Lynchburg, last Wednesday, and declaring that the time had come for them to call a halt in the unequalled support they have given the Republican party, "solely" announced their political independence.

A pretended surgeon amputated a leg for a man named O'Brien at Jacksonville, on Saturday, the leg taking three hours. Finding his saw too dull he sent an assistant into the kitchen of the hotel to borrow the Chinese cook's meat saw, but it was refused. The unfortunate man died, but the surgical brother is alive.

New York hop dealers look for an advance in the price of Pacific coast hops shortly. For some time prices have been at a standstill, owing chiefly to the abundance and cheapness of the state crop. Recent advices from England show that the hop crop there has been almost a failure, and the result has been heavy orders for the Pacific coast article.

The schooner *Sea Foam*, upset at Westport, Cal. Wednesday afternoon and went on the rocks. The crew were rescued, with perhaps the exception of one man. Loss, \$10,000; insurance unknown. The schooner *Humbolt* also parted her lines and is a total wreck. The crew were saved. Loss, \$15,000; insurance unknown. The accidents were caused by a heavy swell in the harbor.

During September 620 immigrants passed through St. Paul, bound west. In the same time an equal number passed Huntington, bound for Portland. By steamer from San Francisco about 809 arrived. The total arrivals for the month were 2,040, as against 2,890 for August, 2,500 for July, 3,100 for June, 31,000 for May, 3,000 for April, 2,000 for March, 1,000 for February, and 400 for January.

Eighty battalions of first class reserves are being mobilized in districts bordering on the Black sea, at points which will facilitate transportation of troops for duty in Roumelia, in the event of the sultan being compelled to adopt extreme measures to settle the Roumelian difficulty. The transportation department is actively engaged in furnishing means for concentration of troops at the most available points for an advance on Roumelia.

In Salt Lake a soldier of the Sixth infantry, claiming to be James Harrington, attorney-at-law, has been bound over in \$20,000 bond by the commissioner. He has been doing a wholesale business, writing to persons in Ireland that they had inherited from \$1000 to \$2000 in the will of purported dead men. His letters to parties enclosed petitions court documents, and demanded \$10 to prove up the will. Several replies enclosed money orders, which will be returned to the writers.

A London cablegram says that fifteen native kings and eight native princes in and around the Congo territory have claimed protection from the African international association in an address to the king of Portugal. They are vigorous against the associations' claim, and ask the king's protection against the new protectorate. The protest is published here at great length. In their text remonstrants say: "Do not abandon us, but save us from the tyranny of our enemy—the international association."

The decision of the postmaster general, to discontinue the Asiatic mails via Europe and the Suez canal, and to restore the route via San Francisco using the four steamers of the Occidental and Oriental line for the purpose, gives rise to rumors that the Pacific Mail may withdraw its steamers from the China trade. This case, it is said, may make available the Australian service touching at the Sandwich islands. It is learned on good authority that the Canadian road is willing to give a subsidy to a line of British built ships, provided the western terminus at Puget sound is adopted as the port of destination.

Bland, author of the silver coinage bill, says: "I have heard no changes of opinion in any members of the last congress who were re-elected, and do not anticipate any affirmative action of the next congress upon the silver question. When Warner's bill is presented to the house I shall offer an amendment, providing that after silver has been deposited at market prices, and certificates issued, the

government shall coin bullion into dollars of the present standard, to be used in redeeming certificates when presented. I do not believe any man could be elected to congress from any district in the Mississippi valley who announced his determination to vote for the suspension of the coinage of the silver dollar."

A dispatch from Constantinople says: Considerable consternation prevails in official circles over an important discovery just made by Alibi Sabuh Pasha, the new minister of war. Immediately on being installed in his new position, Alibi Sabuh Pasha ordered all the various department commanders to report the strength of their respective commands and their present condition, and detailed several officers to inspect various posts. Their reports have been received and show that under Ghazie Osman Pasha, late minister of war, who was dismissed September 25, the army was almost entirely neglected, and large sums of money voted for military purposes were used in other ways than those for which they were meant. Inquiry has revealed that the Adrianople army, which was supposed to be 15,000 strong, contains not half that number. The soldiers have no uniforms and are shoeless. The cavalry is unable to march, owing to a lack of horses and necessary accoutrements. Four thousand horses and 20,000 men who have been fully equipped are under orders to march at an hour's notice.

Need More Extended Market.

There is no reason why Oregon lumber should not supplant that of Michigan in every part from the Rockies to the Missouri or Mississippi rivers, and certainly in all the territories. There shouldn't be a mill in the entire Pacific northwest, nor should there be an idle logging camp. Lumber is the great and leading interest of Oregon and Washington, and there is no industry more stagnant. The lumbermen must reach out for more extended markets, and compete with countries less favored. Rates may be high, but persistent efforts will lower them.—*News, I.*

Proper Treatment for Coughs.

That the reader may fully understand what constitutes a good Cough and Lung Syrup, we will say that Tar and Wild Cherry is the base of the medicine we have discovered. These ingredients with several others equally as efficacious, enter largely into Dr. Bosanko's Cough and Lung Syrup, thus making it one of the most reliable now on the market. Price 50 cts. and \$1.00. Samples free. Sold by J. W. Conn.

A Foe to the Cause.

Tennyson's latest poem is said to deal with home rule in Ireland. If this report is true the Irish cause has received a heavy blow.—*Oregonian, I.*

The Epidemic of Crime.

Whence comes this epidemic of suicides and murders? Recent discussions have named several causes. Hon. C. H. Reeve, of Indiana, charges it to infidel teachings—holding that hopelessness of a future state cripples fortitude for bearing life's ills. Another declares suffering from the universal business depression the cause. A third writer attributes it to increasing insanity, a physician thinks much of the tendency is inherited, while temperance advocates lay the responsibility on strong drink.

Free-thinkers have committed suicide, but so have orthodox churchmen. Financial straits have beset many, but the wealthy have also taken their life.

Insanity and dissipation have preceded suicides and family murders. One feature common to almost every such crime challenges attention. Well nigh every report of suicide and family murder mentions the perpetrator as having "for some time been subject to melancholy." Whence comes this? All recognized medical authorities tell us that the fire which consumes the brain is always kindled by derangements of digestion; that good digestion is impossible without pure blood, and pure blood is never known when the liver and kidneys are out of order. Under such circumstances, a preventive should be sought, and for this Warner's Safe Cure is sovereign—a fact conceded by the best authorities in the land, and it is especially commended by the celebrated Dr. Dio Lewis.—*Rochester Democrat.*

A Startling Discovery.

Physicians are often startled by remarkable discoveries. The fact that Dr. King's New Discovery for Consumption and all Throat and Lung diseases is daily curing patients that they have given up to die, is startling them to realize their sense of duty, and examine into the merits of this wonderful discovery; resulting in hundreds of our best Physicians using it in their practice.
